THE SUNNY SIDE OF LIFE. Subject of Interesting Address by Joel

B. Slocum, D.D. The Sunny Side of Life was the subject of the address by Rev. Dr. Joel B. Slocum, at the Y. M. C. A. meeting at the Cutlery Tuesday noon.

Pleasing solos were rendered by Mrs. Charles Tyler Bard, Dr. Slocum spoke In part as follows:-Life is made up of shadows and sunlight, sadness and smiles, gloom and glory. There is a shady side and a sunny side to almost everything. It may be all very well to keep on the shady side during the blazing days of summer; but in the general making up of our life's experience, we ought to cultivate the sunshine. Every cloud has its silver lining. It is a thrilling experience and one which I once personally enjoyed, that of being upon

sonally enjoyed; that of being upon a lofty mountain and looking down upon a storm that raged far below. The upper surface of those clouds was bathed in the splendors of light. It seemed as though all the rainbows that had ever been bent across the sky were now fallen into an ocean of glory. But the people who lived in the valley looked up and saw only the darkness and the storm. We some-times forget that the very presence of shadows is an argument for light. Shadows, after all, are only intercept-

In our thought today, however, I things. But you say, there are some uation a factor of peril not ordinarily things that appear to be all dark, without a ray of light anywhere; and servant is engaged, it is in legal terms to be appeared by the servant is engaged. It is in legal terms to be appeared by the servant is engaged. It is in legal terms to be appeared by the servant is engaged. It is in legal terms to be appeared by the servant is engaged. your losses and disappointments, of sickness and death in your home; of faliure in your hopes; and of desolation in your plans. But in the tace of all that, I repeat my statement and urge you to believe with me that somewhere in the derkiness of your day. where in the darkness of your day there is a sunbeam, somewhere in your hopeless night there is a star. It is for us to find the joy that is ob-scured by suffering and realize that all things work together for good to them that love God.

Saw Only the Dark Side. once knew a man whose remarks in the prayer meeting always impress-ed me very strongly. I was a mere boy and he was an old man. He was a man of means, surrounded by the comforts of life. He had always been an industrious, hardworking farmer. and his economy and honest toil were rewarded to the full. It seemed to everybody who knew him that there were very many reasons why he should be happy. And yet the thing that he always said when he rose in the old village church, was, that the way was dark and that he had no light in the midst of his darkness. You see he had accustomed himsen to the idea that life is very hard and for-bidding and that it is an unceasing struggle without any relief. He was living on the shady side. If only he had known it, there was a sunny side filled with warmth and blessing. He was a good man and lived a good life was a good man and lived a good life, but he was very unwise in keeping out so much light. He kept a scowl between his eyes when he might have had the joy of the Lord in his face.

The Bright Side. There was another man in that same old country village who lived in ex-actly an opposite way. He had very little of this world's goods but his race of this world's goods but his face was always aglow and his heart was always warm towards his fellow men. He lived on the sunny side. People for miles around knew him sad loved him. His presence was a banediction. It seemed almost as though he not only lived on the sunny side but that he esthered up the side, but that he gathered up the sun-beams lying all around his path and scattered them far and wide among

What Thin Folks Should Do To Gain Weight

Physician's Advice For Thin, Unde veloped Men and Women

Thousands of people suffer from excessive thinness, weak nerves and feeble stomachs who, having tried advertised flesh-makers, food-fads, physical culture stunts and rub-on creams, resign themselves to life-long skinniness and think nothing will make them fat. Yet their case is not hopeless. A resently discovered regeneralive force makes fat grow after years of thinness and is also unequalled for repairing the waste of sickness or faulty digestion and for strengthening the nerves. This remarkable discovery is called Sargol. Six strengthening, fattereducing elements of acknowledged merit have been combined in this peerless preparation, which is endorsed by cominent physicians and used by prominent people everywhere. It is absolutely harmiess, inexpensive and efficient.

A month's systematic use of Sargol should produce flesh and strength by correcting faults of digestion and by supplying highly concentrated fats to the blood. Increased nourishment is btained from the food eaten and the additional fats that thin people need are provided. Lee & Osgood Co, and other leading druggists supply Sargol and say there is a large demand for it. While this new preparation has given splendid results as a nerve-tonus and vitalizer, it should not be used by nervous people unless they wish to gain at least ten pounds of flesh.

SUPREME COURT OPINIONS

IN COUNTY CASES Superior Court Clerk Parsons Receives the Text of Judge's Decisions.

The text of the supreme court judges opinions in the three New London county cases in which opinions were handed down this week has been re-ceived by Clerk George E. Parsons

of the superior court.

Two of the cases were rattroad cases each involving an \$8,500 verdict against the road, from which they appealed and the other was over an obstructed right of way at Old Indian pond in East Lyme bond in East Lyme New Trial Ordered.

In finding that there is error and ordering a new trial in Mrs. Agnes Whitney of New London vs. N. Y., N. H. & H. R. R. Judge Roraback condudes his opinion as follows

It is a general rule that the railcoad company owes no duty to a person who is unlawfully upon its premises, when he is not seen until it is too late to avoid injury. There is nothing to show that the engineer of the passenger train could have stop-ped the locomotive after he discovered that the plaintiff was in a perilous po-sition. From Mrs. Whitney's owr statement it is apparent that the approaching train must have been with-in a short distance of her when without looking she stepped in front of the locomotive from behind the post where she was standing to allow the freight train to pass. Upon the evidence Mrs. Whitney was not even a licensee and therefore had no cass. It is true that questions of negligence and contribquestions of negligence and contrib-utory negligence are ordinarily ques-tions of fact for the jury, yet when the undisputed evidence is so conclu-sive as to one of the contrilling issues in a case the question is one of law and not of facts for the jury. As the verdict was unsupported by proof of the defendant's negligence it should have been set aside. There is error

have been set aside. There and a new trial is ordered, There is error On Contributory Negligence, Judge Prentice wrote the opinion on the appeal in the case of William Vickery of New London vs. New Lon-don Northern R. R. Co. and others. Vickery was given a verdict of \$8,500 in the superior court. The judge finds no error and says in part upon the point of contributors.

point of contributory negligence: The court correctly charged that the burden of proof in the matter of the assumption of risk was upon the de-fendant. When the risk to which the servant is exposed is one that arises from the negligent conduct of the master having imported into the sitminology an extraordinary one. In such cases it is not incumbent upon the plaintiff to either allege or prove want of knowledge and non-assumption. The risk here complained of arose as alleged and claimed from the negligent erection of a switch-stand in dangerous proximity to one of the tracks in the railroad yard and the negligent failure to have a warning light upon it. This was not a risk ordinarily incident to the railroad service in which the plaintiff as a brakeman was employed, but one arising minology an extraordinary one, man was employed, but one arising from the defendant's negligence. The plaintiff may have known of it, and have yoluntarily assumed it, but he did not do so by entering into his employment. If such was the fact, it was incumbent upon the defendant to was incumbent upon the defendant to plead and prove it. Its pleadings were framed upon that theory and correctly

Injunction Not Warranted.

Error in part was found by Judge Thayer in the case of Ida K. Billings, executrix and others vs. Kenneth M. McKenzie in which in the superiir court a judgment for the plaintiff was given with nominal damages and the issue of a mandatory injunction to remove from the right of way the well, pump and pumphouse located thereon. Judge Thayer gives it as his opinion in concluding a review of the case that the court properly refused to set aside the verdict. It is claimed that the judgment file does not set out the facts upon which this judgment for an injunction is founded and that the judgment for an injunction is founded and that the judgment for an injunction is not supjunction is founded and that the judgment for an injunction is not supported by the facts proved in the case. We think that the judgment is open to this objection. The general finding of the jury contained in the judgment file was not a sufficient finding of facts to warrant the sweeping injunction which was granted or to justify the mandatory injunction requiring the removal of the well. The mere fact that the plaintiffs representing the estate have a right of way over the strip and that the defendant has obstructed it and this is all that the jury have found—is not enough to warrant the ound—is not enough to warrant the njunction granted.

The judgment is erroneous in part and so far as it grants equitable relief is reversed and set aside. As to the residue of the judgment, it is affirmed. The case is remanded to the superior court to be proceeded with according to law.

FIRST REAL WORK ON

NEW LONDON NEW PIERS Pile Drivers Started Business Wednesday Morning.

The first real work towards the con-struction of the municipal wharf at East New London was begun Wednes-day morning when the T. A. Scott company started laying the foundation. two pile drivers were engaged throughout the day putting in place the piles that will constitute the foundation. The powerful drivers will be kept at work constantly until the foundation is completed, which will probably not be before spring. Then the excepting work will be started and excavating work will be started and the work whereby the mammoth struc-tupe will take shape will be started with a large force of carpenters.

PELEG KINNEY HOUSE BURNED IN GLASGO

Blaze Said to Have Started from Fire-

place. The house in Glasgo known as the Peleg Kinney house was burned to the ground early Wednesday evening. A family by the name of Graham from New York had purchased the place five weeks ago. It is said a fire started in a fireplace caused the trouble. The blaze applainly seen from Jewett City.

court at Boston Wednesday on a charge of burning his auxiliary schooner yacht "Senta" on the night of October 25, 1910, in the harbor of Edgartown to get \$15,000 insurance money.

The penalty under the statutes is imprisonment for life or for a term of years. Counsel for the defense announced that an appeal would be taken from the verdict, owing to the introduction of certain evidence by the government. Captain Fish was allowed liberty under \$10,000 bail.

The second Senta was found to be on fire early one morning while the captain and two women gue to the evidence, no attempt was made to put out the flame, as the crew feared an explosion of 200 gallons of gasoline, stored aboard. The defense as serted that an all some the cabin serted that an all some from the cabin serted the blaze.

Captain Fish, though of Connecticut birth, served through the Boer war as a British soldier, was one of the defenders of Ladysmith and marched to the relief of Mafeking. For saving the relief of Mafeking. For saving the lives of ten comrades, when he was himself severely wounded, he was birthed the commended for a Victoria (ross, but was found ineligible because of his

WOMAN REFUSED TO

GO ON WITH CASE.

Mrs. Bessie A. Heath Dismissed Her Counsel in Superior Court.

The superior court here Tuesday morning was confronted with an unusual problem in the case of Bessie A. Heath vs. Charles H. Heath et al. The case had been assigned for trial and when tt was reached on the docket Attorneys Amos A. Browning of Norwich and Hull. McGuire and Hull of New London, counsel for the plaintiff, stated to the court that they had supposed that they were ready to go on

Just before the case was reached, however, they said that Mrs. Heath had informed her attorneys that she did not like the manner in which her case was being conducted and that she would have nothing to do with it and wouldn'to testify, and that she had dismissed her attorney, Mr. Browning They reported that the plaintiff had appeared and was in the anteroom, but she was irritable and excited and couldn't be reasoned with. They said that the woman was practically in

destitute circumstances.

After hearing the statement Judge
Burpee suggested that the state's attorney of Hartford county and the selectment of Thompsonville, where Mrs. Heath lives, be communicated with and that they inquire into her mental condition

Mr. Heath and Mrs. Heath formerly resided in Colchester. They had a disagreement and Mrs. Heath sued for support. She was allowed a considerable amount but when he attempted to collect is the was frus-trated in various ways. The suit now pending, which was assigned for trial is one of the steps in the 'litigation

which has arisen.

The suit of Uldege H. Desrosiers vs.
Desrosiers Clothing Co., was settled
without trial. The plaintiff put \$1,300 into the company when it was organ-ized. Later he became dissatisfied and wanted his money back. None of the cases assigned could be tried and the court adjourned to next

SMALLPOX CASES OVER. Mrs. Bessie Jackson Sent from New London to This City.

Mrs. Bessie Jackson, who has been confined in the pest house in the rear of Memorial hospital at New London suffering from smallpox for the past seven weeks, has been released from quarantine and deported to Norwich, where she belongs, says the New London Day. The quarantine was lifted Monday by Health Officer J. T. Black and officials of the Norwich almshouse came to this city to take her away Mrs. Jackson, in lieu of having a bet-ter place to go to, as she is homeless will become an inmate of the alms-house there. Her two children who were kept in the pest house during their mother's illness, were also taken to Norwich

With the releasing from quarantine of Mrs, Jackson New London is now free from smallpox. Mrs, Jackson was the last victim of the disease in this

Only the Beginning, Says Mahan. Representative Bryan F. Mahan of Connecticut expressed great satisfaction at the report of the war department engineers regarding the proposed improvements in New London harbor. "This is the largest sum ever recom-mended by the engineer officers for any Connecticut project in one sum." said Mr. Mahan last night, adding, "and this is only the beginning."
"I am glad to see that the residents along the Connecticut coast are wak-ing up to the value of the improvement of the waterways and harbors of the state. New Haven and Bridge-port should make a fight for the im-provement of their harbors."

A. has promised to be at the banquet. The members are very busy ratting new members and four appligetting new members and four applications were received making nine in two weeks. They are out to make the membership grow to fifty.

BREAKS A BAD COLD IN A JIFFY! TRY IT

"Pane's Gold Compound" ends cold and grippe in a few hours-Don't stay stuffed-up.

You can end grippe and break up a severe cold either in head chest, body or limbs, by taking a dose of "Pape's Cold Compound" every two ours until three doses are taken. It promptly opens clogged-up nos-trils and air passages in the head, stops nasty discharge or nose run-ning, relieves sick headache, dullness,

feverishness, sore throat, sneezing, soreness and stiffness.

Jon't stay stuffed-up! Quit blowing and snuffling! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. If acts without at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Be sure you get the

The Home Beauty Parlor

Marie: Your shortsightedness and squinting are probably caused by a weak and overworked condition of the eyes. I do not think your eye troubles are serious; they can be relieved with the daily application of two or three drops at a time of this simple tonic: Dissolve an ounce of crystos in a pint of water. This will be a great comfort as well as a beautifier and will prevent that squinting which is apt to make crow's-feet and lines about the eyes. Take my advice; don't worry.

Hida: There are many methods advocated for reducing the chin; but, after all, there is nothing so good as to keep down the general flesh. And this does not require any vigorous dieting or exercising if you will take this simple remedy which you can mix at home. Get four ounces of parnotis at the drug store, and dissolve it in 1½ pints water. Take a tablespoonful before meals. It will work magic with the "dreadful double chin" and you will experience no bad effects. High collars should be worn as little as possible. They increase the tendency to flabby throat.

Miss L. G.: Here is a hair tonic which you can prepare at home at small expense and which is a genuine hair grower of the best and simplest kind. Be sure to keep the scalp clean by frequent shampooing with canthrox and then rub into your scalp this tonic, made by dissolving an ounce of quinzoin in a haif pint of alcohol and adding one-half pint cold water. For all scalp troubles and badly nourished hair this is an unequalled remedy.

Olive: I never recommend a hair dye, but unless I am much mistaken about your age, you should not have trouble with faded or gray hair for a long while yet. The best way in the world to stop your hair troubles is to wash with canthrox occasionally. Use a teaspoonful in a cup of hot water. It is the best thing I know of to remove dandruff and prevent brittleness, split hairs, and the irritation caused by excess oil. It cleanses thoroughly the prescription. Dissolve one-half cup sugar and one ounce kardene in one-half put alcohol; then add enoug boiling water to make a full quart. Take a tablespoonful before each meal. I is, a you say, physical, and this tonic is, restore your flagging energies and spirits. For a good complexion beautifier seems of impurities, restore your flagging energies and spirits. For a good complexion beautifier seems of the properties of the

and has none of the objectionable qualities of soap or ordinary shampeos. This is very economical and easy to use. Dries quickly and can be used with the very least waste of time.

Miss H. O.: Your skin treuble sounds as if it were caused by your use of ordinary face powders. They give an artificial look—especially if one is inclined to be sallow or pimpled. The very thing for you is spurmax—the best liquid lotten I know about. It is economical because you mix it yourself at home. Get 4 ounces spurmax (at any drug store) and mix it with by pint hot water, add 2 teaspoonfuls glycerine, apply it to face, neck and arms. The effect will surprise you with its beauty and naturalness. It will cling as if a part of your skin, and last during an entire evening. It will not only disguise cold sores, blemishes, etc., but in time it will relieve them entirely. Miss H. O .: Your skin trouble sounds

Lily Dale: For your hollow cheeks and sallow, coloriess skin, there is nothing better in the world than this greaseless complexion jelly which you can easily prepare at home. Get one ounce of almozoin, put it in a fruit jar, add half a pint cold water and two teaspoonfuls glycerine. Sir brinkly and let stand over night. The use of this with careful massaging will improve skin-nutrition and give transparency and loveliness to the complexion. It is fine to correct pimples.

Isabel: I was glad to read of your enthusiasm about the canthrox shampoo and gladly respond also to your request for this old fashioned tonic prescription. Dissolva one-half cup sugar and one ounce kardene in one-half pint alcohel; then add enoug botiling water to make a full quart. Take a tablespoonful before each meaf. I think your sudden distaste for work is, as you say, physical, and this tonic will, by purging the system of impurities, restore your flagging energies and spirits. For a good complexion beautifier see answer to Miss H. O.
